Long Signal

Short Signal

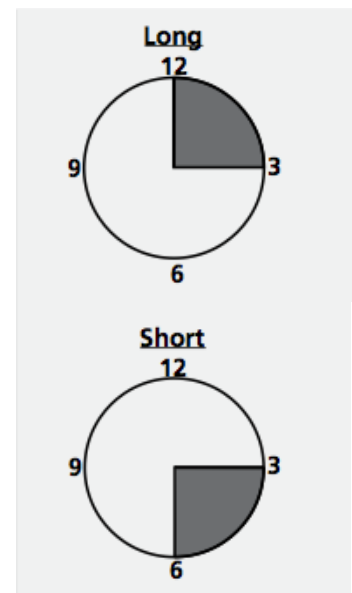

Long Entry: Enter a trade when the green line crosses above the red line. The red line must be angled between 12 & 3 o'clock.

Short Entry: Enter a trade when the green line crosses below the red line. The red line must be angled between 3 & 6 o'clock.

If the angles are not correct, Aussie Rob waits for the next update. If the angles are still not correct, he passes on the trade.

Exit: Exit when the green and red lines cross again or on acceptable profit.
